Blackmer Compressor Selection Data

Blackmer Oil-Free Gas Compressors are used for liquid transfer and vapor recovery of propane, butane, anhydrous ammonia and other liquefied gases. Blackmer has incorporated design improvements to promote longer service life and efficient performance, including ductile iron construction for all pressure parts. Extensive field testing has substantiated that these compressors meet and exceed design performance standards established by the LP-Gas industry.

STYLE	STYLE DESCRIPTION	PART NUMBER	LIST PRICES
CO	Compressor with flywheel and oil pressure gauge only.	LB161CO	7962.00
		LB361CO	10246.00
		LB601CO	20460.00
LU	Complete compressor unit with gauges, base, piping, strainer, 4-way valve, liq. trap, belt guard, sliding base, V-belt drive, less motor.	LB161LU	14370.00
		LB361LU	17520.00
		LB601LU	29096.00
B	Base mounted unit: Compressor, gauges, base, belt guard, sliding motor base, less motor.	LB161B	10538.00
		LB361B	13048.00
		LB601B	24218.00
E	Add to above prices for extended crankshaft.	LB161	460.00
		LB361	460.00

Meeder Equipment Company has rebuilt Blackmer compressors available on an exchange basis that comes with a new compressor warranty. All other brand L.P.G. compressors will be repaired and reconditioned on a time and material basis.
