

VAPOR COMPRESSOR and HAND PUMP

SECTION D

VAPOR COMPRESSOR, HAND PUMP and MOTORS

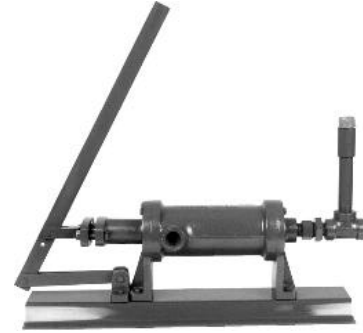

Krug LP-Gas Vapor Compressors

Capacity 18 to 50 gpm depending on speed and piping.
Two cylinder, 10.7 cubic inch, 1.81 in. stroke.
Uses 5/8 pt. 40 sae non detergent oil.

DESCRIPTION	PART NUMBER	LIST PRICES
Gasoline operated vapor compressor	H50G	1340.64
LP-Gas operated vapor compressor	H50LP	1689.46
Liquid and vapor hose kit	HK50	421.54

Krug Hand Pump

The Krug piston-type hand pump is engineered to high precision standards. Careful designing characterizes this pump as well. It's easy to operate and economical to maintain.

DESCRIPTION	PART NUMBER	LIST PRICES
Hand pump	G	717.30
Repair Kit	RKG	265.00

MOTOR and ADJUSTABLE MOTOR BASES

Motors

Explosion-proof (NEMA 7) single phase 115/230V motors for use in hazardous locations. These units come with a normal starting torque. All other class motors are available upon request.

- NOTES: 1. Weights shown are approximate only.
2. Single phase prices shown are for capacitor start.
3. Repulsion induction motors are available at higher prices.

All prices are reformot manufacturers of our selection. Prices for specified motormanufacturers may be higher.

Three Phase 230/460 Volts

Single Phase-Rigid Base
