Portable Patio Heater

For outdoor use only

Powerful 40,000 BTU Heater

- Quality Stainless Steel Finish - Components manufactured from Stainless Steel to insure years of dependable performance.
- Adjustable Bar Table (Patent Pending) - Exclusive milled finish, offered as standard, turn the heater into an entertainment center.
- Innovative Wheel Design (Patent Pending) - Hide-A-Way wheels make transport easy. Wheels are hidden while the unit is in operation.
- Controls - Operator friendly, reliable Piezo ignitor, control knob has off, pilot position, and a low to high variable.
- Energy Efficient Design - Generates more heat than competitors with less gas usage (validated by thermo image testing).
- Variable Heat - Provides maximum comfort. Most competitors only offer low and high setting.
- Designed for Safe Operation - Heater features a flame safety, shutting off the gas supply if the flame goes out, a tip over switch, and a wind resistant pilot light.
- Insect Proof - Design eliminates possibility of small insects entering the gas train and blocking flow.
- Easy to Assemble - Easy to read and understand instructions, fasteners are individually packed to eliminate confusion.
