Enerco Garage Heaters

Enerco's natural or propane gas-fired, AGA Approved, infra-red garage/shop heater brings the sun indoors. Just like the sun's radiant energy, the heat from an Enerco garage/shop heater radiates heat to floor level objects which in turn heats surrounding air to the desired temperature.

DESCRIPTION	PART NUMBER	LIST PRICES
25,000 BTU/Hr Natural Gas	H25N	500.00
22,000 BTU/Hr Propane	H22L	500.00

Enerco Tube Heaters

Enerradiant GT

The Ener-Radiant GT is ideal for residential garages or garage workshops, because infrared heat operates like the sun - directly warming floors, people and objects, NOT AIR.
